Dear Parents and Students,

“Doing life together” has become a fundamental part of our relationship with Christ and other believers here at ACC. While creating relationships and ministering to students I have found a dominant stage and condition in their lives is loneliness. No matter how connected we may seem in today’s world students and adults alike are crying out for meaningful deeper relationships. Each phase of their lives seems to amplify these feelings by continuing to segregate and create niche areas we feel they best “fit”.

Student ministry volunteers and I want nothing more than to create and foster the best environment to engage our students. I am excited to communicate some upcoming growth and transitions in student ministries. Beginning Sunday November 7 students 6th-12th grades will be coming together for worship and teaching at 9:00 AM during our student ministry service “Reunion”. During that time students will continue to break-out into their current D-groups which are grade and gender based. Our hope is to create an energetic and comfortable environment where our students who are “doing life together” can be surrounded with relationships that challenge and grow their faith in Jesus Christ while also allowing families to worship and serve together.

In Christ,

Sean Terry
Student Ministry Pastor
